

*Engine instrumentation and electronics*  
*Custom engineered for bottom line performance*

## INFORMATION CENTER

(NMEA compatible)

### Features and Benefits

- Date (month, day & year) and Time (hours, minutes, seconds)
- Water Depth 0 - 150 ft.
- Water Temperature 40 - 99°F (0 - 40°C)
- Outside Air Temperature 40 - 99°F (0 - 40°C)
- Set Alarms for Depth, Water and Air Temperature
- Monitor alarms visually and audibly
- Alarm capable of switching 100 ma
- Display text in English or Metric
- See all four functions at one time
- Package includes depth/temperature sensors and outside air temperature sensor
- Thru hull and transom mount available
- 18-month warranty on the complete system

*BEEDE ELECTRICAL INSTRUMENT CO., INC. • P.O. BOX 8910 • PENACOOK, NH 03303-8910*  
*TEL: 603-753-6362 • FAX 603-753-6201 • EMAIL: sales@beede.com • WEB SITE: <http://www.beede.com>*

ISO 9001 Certified

## Environmental Specifications

**Operating Voltage**  
11-16 VDC

**Over Voltage**  
Withstands three transient cycles of 80V positive transients at 25°C ± 2°C

**Reverse Polarity Protection**  
Standard all instruments

**Temperature**  
Operating: -20°F to +185°F (-30°C to 70°C)  
Maximum Change: ±2% F.S. from 75°F (24°C) indication.

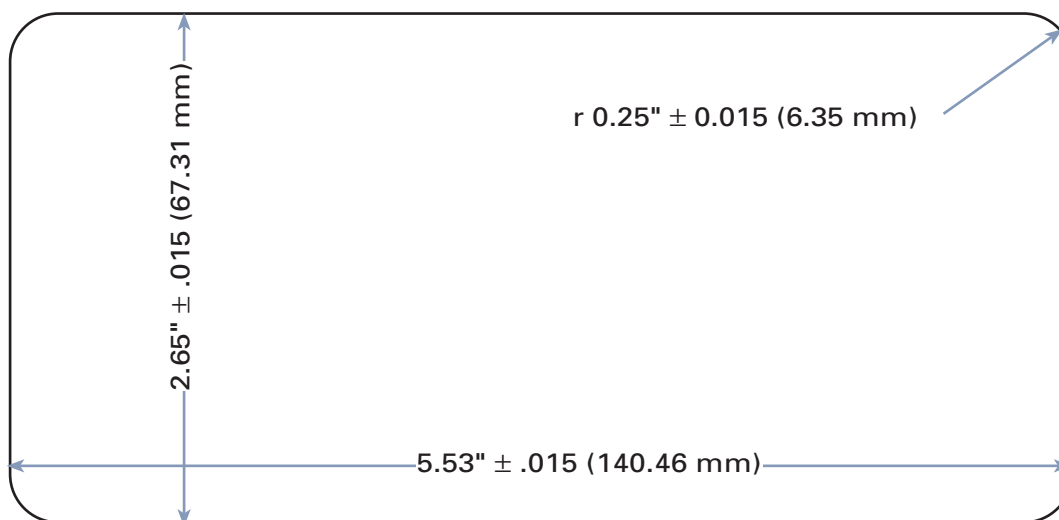

**Shock**  
50G, 9-13 ms half sine, 25 shocks in each of three orthogonal axes with no damage.

**Vibration**  
0.060" double amplitude 10-80-10 Hz. Two hours in each of three orthogonal axes: remains within initial accuracy.

**Connections**  
Made via amp mini universal mate-n-lock
